Chemist

To complete this assignment, go to sciencebuddies.org, search for **chemist**, and click on the career profile.

1. Give three examples of things a chemist could do.
2. What is the salary range for a chemist?
3. What is the minimal education level for a chemist? What degree do most chemists have?
4. What are the 2 types of environments chemists typically work in?
5. List 4 typical tasks a chemist would be responsible for.
6. Look at the list of "On the Job" tasks. List 2 that you think you might really enjoy or really dislike. Explain your reasoning.
7. From that same list, what are 3 tasks that are gross? Why?

Paragraph response (4-6 sentences): Would you make a good chemist? What qualities do you possess that would be beneficial in this career choice? In your opinion, what would be the most difficult parts of this job?
