TIC-TAC-TUESDAY

Activity from LearnEdNotebooks.com

Working in pairs, write all of your vocabulary words from the current unit(s) for review onto small slips of paper. You do not need to write the definition, just the word. Put all of the words into a paper bag or cup and flip a coin to determine which player will go first. Player 1 (X) will select a square and draw 1, 2, or 3 terms from the bag (according to the selected square). If Player 1 is able to correctly define the terms, he or she will place an X in the square. Player 2 (O) will follow the same procedure and turns will alternate until one player gets three in a row.
